

**Amendment to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application:

**Listing of Claims:**

Claim 1. (Currently Amended) A panel-type speaker mounting structure comprising:  
a liquid crystal display (LCD) window with a particular size having a first surface exposed on a top end of an upper casing frame of a main body and a second surface facing an interior of the main body; and

an LCD module disposed under the LCD window with a gap between the LCD module and the LCD window within the main body, the LCD module having a polarizing plate having an upper surface facing the second surface of the LCD window and a lower surface opposite the upper surface, the polarizing plate having a size greater than the size of the LCD window and being divided into a first portion located adjacent to the LCD window and a second portion extended from the first portion, for mounting a panel-type speaker to the lower surface of the second portion of the polarizing plate,

wherein the first portion of the plate has a size no larger than the size of the LCD window and the second portion has a size greater than a size of the speaker and of the plate is extended in a predetermined direction below the LCD window away from ~~a top portion of a device~~ the LCD window.

Claim 2 (Canceled)

Claim 3. (Previously Presented) The panel-type speaker mounting structure of claim 1, wherein the polarizing plate is made from a polarizing material.

Claims 4-8 (Canceled)
